

Green Glance® Package

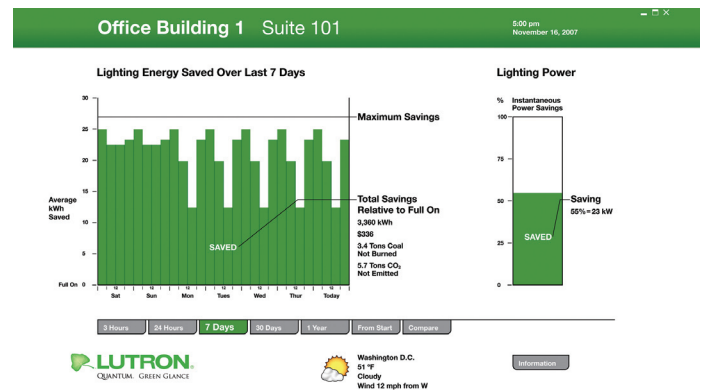

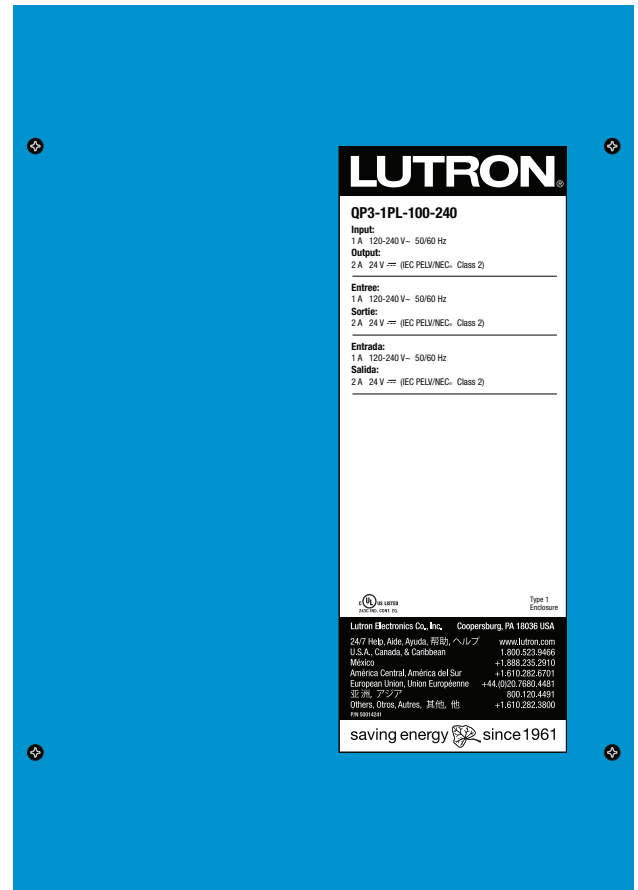

For organizations that want to encourage employees to save energy and publically demonstrate their corporate commitment to sustainability initiatives, the Quantum® Select Green Glance® Package is a simple, cost effective way to add Green Glance® technology to smaller, standalone QS or panel-based (GP, LP, or XP) lighting control systems.

Additional Information:

- Additional technical information about the products included in this Quantum® Select Package can be found at <http://www.lutron.com/Service-Support/Technical/Pages/ProductSpecification.aspx?syst=W hole+Building+Systems&prodn=Quantum%C2%AE>
- Please note that a Windows® server running the Quantum® software suite is required for the collecting data that will be used by the Green Glance® software and for Energy Reporting.

Package Includes:
